Section Leader Comments

Please comment on your Section Leader's teaching.

Comments
Sean's sections were really helpful for (1) advice on how to tackle coding tasks in Adrien's psets and (2) reviewing some of Xavier's lecture material at a slower pace. My only comment is I wish the sections were timed a little differently for Adrien's part, because usually we hadn't had much time to spend on the problem set yet when we had the section. I think it would've been more helpful if we'd had time to first look at the assignments and figure out what we're being asked to do, and then have Sean talk through more specifics on how to approach.
Sean is amazing, very helpful outside of class and holds useful sections.
Sean meticulously covered everything we'd need to know for homework and exams in section. Sections were super clear; I just wish the notes were posted online earlier. He was super available outside of class and took class feedback on what to cover. Thank you SO much Sean!
Sean was a great TF and his sections helped clarify the material from class.
Sean's sections were helpful for understanding the material in class, and his notes on computational methods proved especially helpful in the problem sets. Assembling more formal slides for some of the later sections may have been helpful for exam preparation.
Sean is an excellent TF. His sections were great, and he was very acessible. He always explained things that were not clear from lecture, and was quite patient with students. He has a bright future!
I thought Sean was wonderful! Very clear explanations, and really responsive to questions and kind.
